Deadline for manuscript
submissions:

31 August 2022

Message from the Guest Editor

It is my great pleasure to invite you to the third International Conference on Energy, Material Science, and Environmental Engineering (ICEMSEE 2022, <http://www.icemsee.com>), organized by the Yaseen Academy and to be held on 19-21 August 2022 at the International Academic Exchange Center, Huazhong University of Science and Technology, Wuhan, China.

The conference calls for significant contributions in all major fields of energy, material science, and environmental engineering from theoretical and practical aspects, aiming to provide a platform for researchers and practitioners from both academia and industry to meet and share cutting-edge developments in the field.

ICEMSEE 2022 welcomes the participation and submission of high-quality manuscripts falling into the scope of the *Coatings* journal to be considered for publishing in this Special Issue. Scholars who do not plan to participate in the conference are also welcome to submit their papers.

The major topics covered in ICEMSEE 2022 include, but are not limited to, the following:

- (1) Energy systems and green energy;
- (2) Advanced materials and applications;
- (3) Environmental engineering and protection.

Editors-in-Chief

Dr. Alessandro Lavacchi

Sesto Fiorentino, Firenze, Italy

Prof. Dr. Wei Pan

State Key Laboratory of New
Ceramics and Fine Processing,
School of Materials Science &
Engineering, Tsinghua University,
Beijing 100084, China

Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and many other databases.

Journal Rank: JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Materials Chemistry*)
